Are you looking for a fun and rewarding summer internship? At PetSmart, we are committed to developing future business leaders. Join our **Information Technology** team this summer and thrive in a collaborative culture where being the trusted partner to parents and pets in every moment of their lives is priority number one.

What will you do?
- Experience the IT function of the leading pet specialty retailer firsthand as you work with a team of System Specialists to work on device configuration management, identifying process efficiencies and project management.
- Leave your "paw" print with a project designed to make a true impact on the business.
- Present your recommendations and innovative ideas to PetSmart leaders.
- Develop and grow your skills with the support of a caring manager and dedicated mentor.

What's in it for you?
- 10-week paid summer internship!
- Connect and socialize with other PetSmart associates early in their career as part of the StartSmart associate resource group.
- Make a difference! Volunteer with your fellow interns during the annual "PetSmart Interns Give Back" day.
- Pet friendly environment, bring your pets to work!
- Enjoy our campus amenities: "Top Dog" gym fitness center, Dog park, Starbucks station, Sit&Stay Café

What will you need?
- Junior status pursuing a Bachelor's degree in Computer Science, Information Technology, Project Management, or related field.
- Knowledge of device configuration (IOS, MAC) required.
- Knowledge of process efficiency methods preferred.
- Solid critical thinking ability; analytical skills are highly utilized in this role.
- Excellent written and verbal communication.
- Must be able to produce work in a collaborative, team environment.

What are you waiting for? Apply today and use your passion for pets to jumpstart your career! For more information on opportunities with PetSmart, visit us at careers.petsmart.com,
