

## JOIN US AS A TECHNICAL DESIGN INTERN

### About This Opportunity

Project based opportunity to explore the role of a Technical Designer in the Apparel and Accessory area. Develop big ideas and technically analyze designs that achieve Target's overall product strategy, quality and financial objectives.

Use your skills, experience and talents to be a part of groundbreaking thinking and visionary goals. As a Technical Design Intern, you'll take the lead as you...

- Gain experience in areas such as garment construction, technical fit, product standards and product approval
- Competitive shop and analyze apparel products
- Contribute to the product development process
- Obtain hands-on experience in a corporate environment
- Apply your skills to help create better products for our guests
- Experience job shadow opportunities with Technical Designers and Development Managers

### Requirements

- Current student working towards a Technical, Clothing and/or Textile-related degree (3.0 GPA or above)
- Basic understanding of fit, grading, and garment construction
- Experience with CAD, Adobe Suite and relevant computer applications
- Accuracy and attention to detail
